Ed Dawson
267 Maple St.
Anytown, CA 98765

Dear Mr. Dawson,

To help us give you the best care, we automatically keep track of several lab tests. The following is the standard recommended test schedule:

Test For	Test Name	Your Recommended Test Schedule	Date of Your Last Test
Blood Counts	Hemoglobin (or Hematocrit)	Every 6 months	12/11/2012
Cholesterol	Low Density Lipoprotein (LDL)	Every 6 months	8/15/2012
Urine Protein	Microalbumin-Creatinine Ratio (ACR)	Every 6 months	12/16/2010
Kidney Function	Creatinine (or eGFR)	Every 6 months	12/11/2012

If you have a lab slip you can go to any lab location to have your blood drawn. If you do not have a lab slip, please call my office to confirm that you need this test.
